GIPS-compliant performance information for 4Thought's strategies may be obtained by email at info@4tfg.com; on the 4Thought website at https://www.4tfg.com/performance-requests; or by phone at (516) 300-1617.*

A Formulaic, Data-Driven Investment Process **And A Team Structure**

Our portfolio modeling process starts with creative proprietary research and empirical data analysis. Our findings are used to generate decision making formulas that are able to rapidly and repeatedly analyze vast quantities of raw data and drive our buy/sell/allocation decisions in tune with the specific investment mandates of each of the separately managed accounts offered. Our team includes a Chief Investment Officer, an Investment Committee, and appointed Portfolio Team Members who are cross-trained in all aspects of the portfolio decision making process and trading to ensure continuity and smooth succession for our client firms.

Morningstar Separate Account Research Availability

Morningstar currently reports on all of our Separately Managed Account composites through their US Separate Account research database, so that you can access info on our SMAs independently and begin your own research process.

Morningstar Ratings[™] as of March 31st, 2025

Partner with 4Thought Today and Transform The Way You Manage Your Clients' Assets

Through the use of our Separately Managed Account program you can take advantage not only of our flexible Multi-Method Investing® approach and algorithmic investment processes, but also our personnel, training, resources, and support. In the end, our goal is to provide options that help you work in a more holistic way so achieving your client's financial goals becomes easier.

- Low cost access to high impact investing through our redefined concept of the market cycle
- Human creativity and support services combined with the power of our technology-driven methodology
- A flexible program for either a turnkey approach or the manager-of-managers
- Options for ancillary practice management resources

The information contained herein: (1) is proprietary to Morningstar and/or its content providers; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete, or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information.

The Morningstar RatingTM for separate accounts, or "star rating", is calculated for separate accounts with at least a three-year history. It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance. The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics.

Notes: The ratings and rankings provided are based on Gross of fees returns for the period ended at the date shown above, amongst managers reporting to Morningstar for the full time period referenced. Rankings and ratings provided are based on gross of fees returns, and therefore the deduction of fees is not reflected in this data or in the data of competitors to which 4Thought's composites are compared. Fees for separate accounts can vary widely and are negotiated between the asset manager, the separate account program sponsor or advisor, and the investor. Morningstar has chosen to present gross-of-fees performance (before fees have been taken out) to compare separate accounts. Net-of-fees calculations often deduct the highest theoretical fees that an investor may pay. Morningstar will not calculate ratings for categories or time periods that contain fewer than five separate accounts. Each investor in the same separate account can experience slightly different total returns, because investors

have different account preferences and restrictions. Therefore, to ensure that ratings are fairly assigned, Morningstar will calculate ratings for only those firms that report performance for "composites" of similarly managed portfolios according to the guidelines of the CFA Institute's Global Investment Performance Standards (GIPS®). Separate accounts that do not have ratings can be divided into two groups: those that do not qualify to be rated and those that did not participate. A separate account will not get a Morningstar Rating if. It is less than three years old, the firm is not GIPS-compliant, or the category contains fewer than five separate accounts that are eligible for a rating.

Investment Advisory Services and Separately Managed Accounts are offered through 4Thought Financial Group Inc., an SEC Registered Investment Advisor. Registration does not imply a certain level of skill or training. This document is for informational purposes only and does not constitute a complete description of our investment advisory services or performance. This is in no way a solicitation or offer to sell investment advisory services except, where applicable, in states where we are registered or where an exemption or exclusion from such registration exists. Nothing here should be interpreted to state or imply that past results are an indication of future performance. Readers should conduct their own review and exercise judgment prior to investing. Investments are not guaranteed, involve risk and may result in a loss of principal. Past performance does not guarantee future results. Investments are not suitable for all types of investors.

*The GIPS firm definition excludes any third party asset management programs over which 4Thought maintains oversight advisory agreements on behalf of its clients, any arrangements under which 4Thought provides recommendations for client self-implementation, and any assets under advisory but not under direct management (in which 4Thought provides allocation changes or trading signals to third party firms but does not take discretion over the trading of client accounts).
